A third-year Information Systems student at Satya Wacana Christian University with a strong interest in technology, software development, system design, business analysis, and data analysis. I am also profoundly interested in emerging technologies like Web3 and Artificial Intelligence. Organized, adaptable, and a clear communicator in team environments. Currently gaining hands-on experience through academic work, project work, and an internship, focusing on designing intuitive and innovative digital solutions while leveraging data to drive informed and strategic decisions.

EDUCATION BACKGROUND

Universitas Kristen Satya Wacana

Undergraduate in Information System; Current GPA : 3.87

Salatiga, Indonesia

2022 - 2026 (Expected)

SMA Negeri 3 Salatiga

Senior High School, Math and Science

Salatiga, Indonesia

August 2019 - July 2022

PROFESSIONAL EXPERIENCES

Dr. Oen Solo Baru Hospital

Full-Stack Web Developer Intern

Surakarta, Indonesia

April 2025 - July 2025

- Served as a Full-Stack Web Developer on a team project to develop a web-based E-Logbook using Laravel 11, Tailwind CSS, and PostgreSQL, supporting nurse competency assessments in a hospital environment.
- Designed an intuitive and responsive UI/UX to streamline daily clinical task input for nurses, enhancing usability in a hospital environment.
- Implemented secure session-based authentication using Laravel Breeze and managed database structure through migrations and seeders.
- Developed validation and scoring logic to log clinical activities (e.g., IV insertions, vital signs) and convert them into performance metrics based on job roles.
- Delivered a functional prototype that replaced manual logbooks, improved data accuracy, and enabled real-time supervisor monitoring.

ORGANIZATIONAL EXPERIENCES

Open House FTI UKSW 2025

Publication and Documentation Division

Salatiga, Indonesia

February 2025

- Joined the Organizing Committee for the 2025 FTI UKSW Open House as the Publication and Documentation Division.
- Gained Instagram Reel insights with 37 thousand views, 900 likes, and 94 shares from the results of promotional video publications.
- Documented the FTI UKSW Open House event, which ran for 3 days with 362 participants from high schools & vocational schools around Salatiga City.

Student Association of Information System FTI UKSW

Promotion and Aspirations Division

Salatiga, Indonesia

December 2023 - December 2024

- Member of the Promotion and Aspiration Division in Information Systems Student Association (HMPSI), responsible for documenting activities and managing HMPSI FTI UKSW's TikTok and Instagram accounts.
- Successfully increased engagement on the new HMPSI platform (TikTok @hmpsi.ftiuksw), achieving an average of 166 likes per month, totaling 1,300+ likes through the implementation of creative content strategies.
- Enhanced students' visibility and involvement in academic and non-academic activities by improving exposure and fostering engagement with the student community.
